

New Build

Scheme Details

Following the successful completion of SEGRO Plot 63, comes the completion of Plot 70. This development involved the construction of 13 industrial units, split into 3 blocks of terraces. With a total area of 39,090 sq. ft, the works on SEGRO Park in Dagenham also included all external works; service yard, landscaping, parking and amenities. This speculatively built freehold development is designed to achieve Carbon Neutral Status, incorporating battery storage and electric car charging points.

Value: £5m

Programme: 38 weeks
