# Volvo Coventry

## Project Value £3.3m

## Programme 30 weeks

This Fast Track scheme was a huge success; completing on time and the finished product resulted in a very happy client. The works on this Volvo development included the extension to the parts and workshop department, drainage diversion, PV panel installations,  external cladding, mezzanine alterations, soft strip out and new fit out, new M&E works, with suspended ceilings, decorations and new flooring, all within a live working environment.
